## Related Projects:

WonderTix: Capstone Course Project

Summer 2022

- WonderTix is an open-source project commissioned by Portland Play House to replace their current ticket and customer management system.
- Role as a full-stack engineer in a team of 7 students, worked on the backend creating new routes and replacing the current database design.
- Created some front-end UI design and feature implementation.

Chatter: Personal Project

- Chatter is a small chat application I have been working on using Javascript express and socket.io. People can join a chat room and chat with each other.
- I will add features like profiles, the ability to personal message another user, and any other idea I come up with.

Song Organizer: Course Project

Spring 2020

- Built a program to organize songs into a binary search tree read in from a separate file. Songs are sorted by artist name, and each song has a short description and three keywords to categorize certain songs with each other.
- Built the binary search tree

**Additional Experience:**

Pyramid Industries Construction

June 2017 - June 2020

**Extra-Curricular Activities:**

Portland State University Football

2018 - 2019
